

QUALITY PRODUCTS INTERNATIONAL LIMITED

[www.QPILtd.com](http://www.QPILtd.com)

**QPI Ltd** has supplied a wide range of products from small promotional material to industrial equipment, including specialist equipment used by certified test labs.

Many of our procurement clients are promotional companies who on sell to major brands including Heineken, Mercedes Benz, Disney, Cancer Council, Heart Foundation, etc

Much of our QC work has included “white label” inspection reports on behalf of certified test labs, and other QC companies.

We would welcome the opportunity to quote for any prospective procurement projects you may have, be it for general merchandise, awareness days, fund raising, marketing / promotion, or items for your staff and volunteers.

We can often turn jobs around in under a month however suggest more time is allowed especially for sample and artwork approval.

**QPI** has shipped over **1 million lapel pins** in a single consignment. Of course we are happy to work with smaller quantities of a few thousand and can even ship “one off” product economically in some cases.

We are limited in what we can show in a product catalogue, as much of our business goes through agencies and promotional companies and so is subject to commercial confidence.

All product is shipped from factory direct to you, so is manufactured to your specification. Please [email](#) us a details of what you may need or be interested in, we can quote on your specific needs.

## QPI Ltd Quality Control

The key distinction for many of our clients is that we are a QC company.

We provide a comprehensive service that includes pre-vetting any new factories, following production through initial sampling specification, production and shipping. Key elements include "in factory" During Production Inspections and typically Pre Shipment Inspections (depending on DUPRO/s).

Our aim is to provide better value for money than most organizations can obtain from buying factory direct. In fact we even supply to many large companies that have fully staffed buying offices in Hong Kong!

## QPI Ltd origins in Asia since 1969

Klaus Maertin invented the popular Floaties learn to Swim Products.

That saw various members of the Maertin family spending a lot of time in Asia for procurement, product development and QC.

Eventually those activities expanded to OEM production of other Swim Products and quickly expanded to include services for a wide range of third party clients.

## Supporting Your Existing Supply Chain?

If you already have suppliers in Asia, we can support you with our QC services which include:

- Factory Auditing / social auditing
- Product testing via European-managed Hong Kong and Chinese labs (for reliable, yet fast and cost effective testing)
- Order monitoring – workflow management
- Production & Pre Shipment Inspection
- Container Loading Inspection
